MESSAGE FROM THE PRESIDENT

Last year, in my message to you, we pledged to continue to strive for unsurpassed excellence in customer service and to make advanced products available to more of our customers.

As 2004 draws to a close, I want to share with you a few of the initiatives the Cooperative has accomplished toward these goals.

Today it's easier than ever before for you to do business with us. We are integrating all of our products and services under one company. So, when you call 1-800-FOR-GVTC or visit one of our convenient retail locations in Boerne, Smithson Valley or Cost, and speak to one of our friendly service representatives, they can handle all your needs for cable television, telephone, Internet and Security. This one-stop shopping allows you to make "One Call" to "One Company" for all of your communication needs, and best of all, it is all billed on "One Bill."

Recently, we introduced Choice Unlimited. This highly popular package of services includes a residential line, the most popular calling features and unlimited long distance calling, and is available to all GVTC customers at a very competitive price.

We now have a state-of-the-art Network Operating Center (NOC) that monitors our network 24 hours a day, seven days a week. As a result, our service activation measurements are at an all-time high.

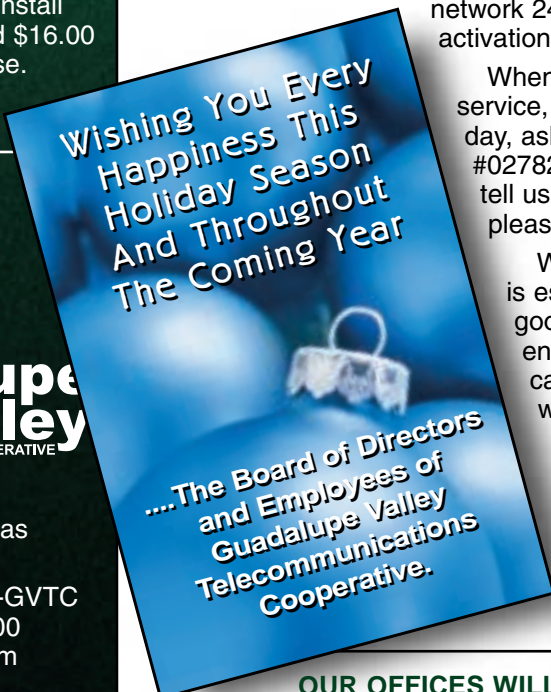

Whenever we dispatch for a repair call or to deliver a new service, a postage free customer survey card is mailed the next day, asking you to provide us feedback on "How we are doing." #027821 I am pleased to announce the results of these surveys tell us that we are doing a great job, and that customers are very pleased with our services and products.

We are ever conscious of our stewardship responsibility. This is especially true in view of competition, where we must make good decisions as stewards for the resources you have entrusted us to manage. Proactively evaluating where we can expand our cable television network is essential. We will bring it to areas where it makes good business sense.

More and more of you now have GVTC Broadband. Every month, we launch new sites within our service area, so that more of you can embrace broadband and what it has to offer.

Ritchie Sorrells, GVTC President and C.E.O.

Digital Video Recorder

Pause and replay "Live" TV.

Record all of your favorite shows to watch whenever you want...It's easy and simple to use.

MESSAGE FROM THE PRESIDENT CONTINUED FROM PAGE ONE

In June, we changed our name to Guadalupe Valley Telecommunications Cooperative. As you know, the telephone industry has served us well over the years, but now in the face of competition, it is time to develop new market opportunities. This calls for us to expand our existing portfolio and offer integrated services to grow our business. As a result, we felt telecommunications is more representative of our complete line up of products and services. So today we now market all of our services as Guadalupe Valley Telecommunications Cooperative.

Although we are constantly adjusting our products and services, some things will always remain the same. Our tradition of excellent customer service will continue. Our dedication to the communities we serve, through manpower and financial assistance, is unwavering. We live and work in our communities and are here for you. This in itself sets us apart from the national conglomerates we compete with on a daily basis. We are strong and proud to be your cooperative!

We realize you have more choices than ever before and appreciate your loyalty. Our focus demands we leverage change, and through your continued support GVTC, will remain an important factor in the competitive landscape and to the communities we serve.

In closing, on behalf of all the employees and the GVTC Board of Directors, I would like to wish each of you a very safe and joyous Holiday Season

GVTC ASSISTS SMITHSON VALLEY HIGH

Early on the morning of Monday, November 8, 2004, Rocky Rust, Construction Supervisor for Guadalupe Valley Telecommunications Cooperative (GVTC) responded to a telephone call from Cricket Ingraham at Smithson Valley High School asking GVTC to help with the placement of new flagpoles at the high school.

"Our school districts are top priority at GVTC," says Rust. "When we received the call, we adjusted our schedule, which enabled us to dispatch the appropriate personnel along with the heavy equipment needed to complete the project."

The project required GVTC to drill holes for the new flagpoles at the football stadium, and included removal and placement of new signposts located on the driveway leading up to the high school. #055693 GVTC employees Chris Stobaugh, Kip Anderson, Vicente Romero, Henry Hendricks and Rocky Rust participated in the project.

As he proudly points to the GVTC logo, prominently displayed on the Smithson Valley High School Stadium Scoreboard, Rust states: "We live and work in our communities, and are glad to lend support with manpower and resources whenever possible."

Guadalupe Valley Telecommunications Cooperative (GVTC), the largest telephone cooperative in the State of Texas, provides communications services to residents and businesses in eleven counties spanning over 2,000 square miles. GVTC's portfolio of services includes Local Access, Unlimited Long Distance, Internet, Security, High Speed Broadband, ISDN, Digital Cable Television and many other services, all from one company on one bill.

Find Your LUCKY NUMBER!

Two lucky member numbers are hidden in this issue of Party Line. Find YOUR member number after a # sign in the text of this newsletter and you're a winner! The number must match your member number (from your GVTC statement). This month GVTC is giving each of the two winners a \$20.00 GVTC Gift Certificate, to be applied to your phone bill. If you are a winner in this newsletter call Mrs. Janet S. Sczech, Director of Marketing at GVTC: (830) 885-4411 or toll-free 1 (800) 367-4882.
