DSL technology has specific technical limitations, most notably the distance you can be from the telephone company's serving office. This distance is measured in actual cable footage, not airline miles. Other limitations include qualifying the telephone line that carries DSL service.

DSL is Coming in February to:

Fisher Rd. & Hwy 32
Canyon Shores
Silver Hills

Tapatio Springs
Village West
FM 1863 & Beck Rd.

Lines, Wiring & Jacks Guarantee

In January 1987, the FCC ordered you, the subscriber to assume responsibility for the maintenance of the telephone inside wiring in your home. This means in the event of a telephone repair outage, you must decide who will repair the telephone wiring inside your home when repairs are required.

Guadalupe Valley Telephone Cooperative Inc. (GVTC), offers its members a low-cost Telephone Inside Wire Maintenance Agreement which eliminates the hassle and worry associated with repair issues, for only \$1 per month, per line. #016076 Customers covered by this agreement are assured their telephone repair visit will cover the technician time, as well as the materials necessary to maintain their inside telephone wiring, from the protector box to the point of the telephone repair, including the phone jack.

In other words, should a telephone wire be damaged (such as the family pet chewing the telephone wire) in addition to normal usage, Guadalupe Valley Telephone Cooperative, Inc. will repair it without charge! This amounts to a tremendous savings for you since the going rate for a telephone repair visit is around \$35 per hour.

As with any service, certain restrictions do apply, so call our business office today to order a Telephone Inside Wire Maintenance Agreement for your home!

Relay Texas 7-1-1 Service Available Statewide

By dialing, 711, it's now easier for Guadalupe Valley Telephone Cooperative customers to take advantage of the Relay Texas service. The simpler, easier to remember, number means callers will not have to dial a 10-digit number to contact the Relay Texas system. Relay Texas provides round-the-clock telephone interpreting for the deaf, hearing and speech-disabled persons as well as hearing persons.

The 10-digit numbers vary from state to state, so there is a nation-wide benefit by providing 711 access for telecommunications relay services (TRS). The Federal Communications Commission required all telecommunications carriers to implement 711 dialing. Some businesses may still need to make changes to their private branch exchange (PBX) system to allow 711 to be dialed.

Find Your LUCKY NUMBER!

Two lucky member numbers are hidden in this issue of Party Line. Find YOUR member number after a # sign in the text of this newsletter and you're a winner! The number must match your member number (from your GVTC statement). This month GVTC is giving each of the two winners a \$20.00 GVTC Gift Certificate, to be applied to your phone bill. If you are a winner in this newsletter call Mrs. Janet S. Sczech, Manager Sales & Marketing at GVTC: (830) 885-4411 or toll-free 1 (800) 367-4882.
